

**Would you like to work in a dynamic environment, tackling sustainability of our agri-food systems at EU level?
Apply for an internship with Plants for the Future ETP**

Type: Paid internship

Start and duration: Start early 2023 for a period of 6 months, with a possibility of extension

Location: Brussels, Belgium

Mission and vision of Plant ETP

Plants for the Future ETP (Plant ETP) is a multi-stakeholder platform representing the plant sector from fundamental research to crop production and distribution, and:

- Co- developing a vision for the future of agri-food systems
- Fostering a globally competitive European plant research landscape and value chain-wide strategies for research & innovation
- Interfacing with EU institutions and promoting science-based policymaking
- Increasing the visibility and impact of plant sciences

Your role

Climate change and the EU Green Deal call for urgent changes in our agri-food systems. Plant ETP contributes as an agile interface between science and policy. The intern's activities will mainly focus on communication and outreach around topics that can make a difference. This includes impacts from plant sciences and breeding techniques, up to agri-food production systems. The intern will work side-by-side with the Executive Manager and support her in the daily management of the platform, and will be closely involved in the Horizon Europe Project called *GeneBEcon*.

Desired profile

- A background in communication (e.g., social media, website management, event planning) or (biological) science with a strong interest in the other; knowledge of EU policy, relating to agri-food systems, would be an advantage
- Fluency in English (written and oral); knowledge of French or Dutch would be an advantage
- Demonstrate excellent drafting and communication skills
- Excellent organisational skills and capacity to juggle several topics and activities at the same time

To apply: Please send your CV, cover letter and availability to the attention of Amrit Nanda (amrit.nanda@plantetp.eu) with the subject line "Plant ETP internship application". Applications will be reviewed on a rolling basis. The position will remain open until filled.
