

A stylized logo of a plant with several long, thin, upward-curving stems and small, oval-shaped leaves, rendered in a golden-brown color.

Plants
for the **Future**
European Technology Platform

our activities

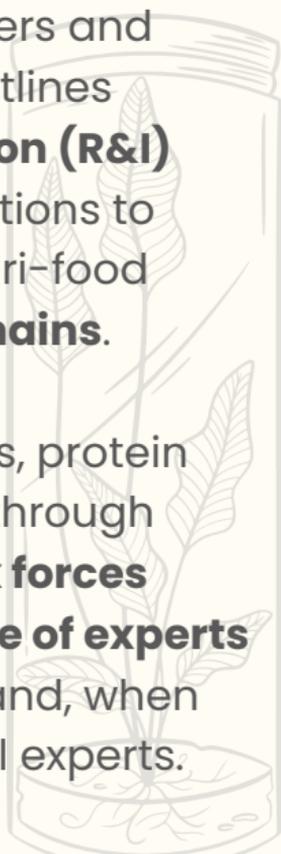

Plant ETP, through engagement with multiple stakeholders and collaborative efforts, outlines **Research and Innovation (R&I) needed** to develop solutions to challenges faced by agri-food players **across value chains**.

Priority topics (e.g., NGTs, protein strategy) are explored through **working groups or task forces involving a broad range of experts** from our membership and, when needed, invited external experts.

Plant ETP is involved in **EU-funded research projects** addressing relevant subjects for Plant ETP's core activities related to education, research and innovation.

Plant ETP organises events and outreach activities **to raise awareness of plant breeding and plant sciences**.

***Plants for
the Future***

*promotes
the flow of
innovation
to the
market for
the benefit
of society*

about us

Plants for the Future ETP (Plant ETP)

is a multistakeholder platform representing the plant sector from fundamental research to crop production and distribution

we unite

ACADEMIA

science organisations, universities and research institutes

INDUSTRY

seed and breeding sector and agricultural service providers

FARMING COMMUNITY

farming organisations and cooperatives

our mission

our vision

Plant ETP promotes the flow of innovation to the market by identifying challenges and possible solutions on the ground, and advocating for science-based decision making and an innovation-friendly policy environment in Europe
